LAND ECONOMICS

a quarterly Journal of

PLANNING, HOUSING & PUBLIC UTILITIES

VOLUME XXXVII

February 1961-November 1961

LEADING ARTICLES

ANDREWS, RICHARD B. Urban Economics: An Appraisal of Progress 219–228

BREWER, MICHAEL F. Local Government Assessment: Its Impact on Land and Water Use 207–218

CIRIACY-WANTRUP, S. V. Conservation and Resource Programming 105–112

COKE, JAMES G. Political Values and Population Density Control (Charles S. Liebman, co-author) 347

CONKLIN, HOWARD E. Development of a Regional Concept for Farm Management Research in New York (Kenneth C. Nobe, co-author) 45–50

COOK, HUGH L. The New Agrarian Reform Law and Economic Development in Venezuela 5–17

DORNER, PETER. Needed: A New Policy for The American Indians 162–173

DOWNS, ANTHONY. Metropolitan Growth and Future Political Problems 311–320

EDWARDS, ALFRED L. Land Reform in Iraq: Economic and Social Implications (Rasool M. H. Hashimi, co-author) 68–81

FLOOD, KENNETH U. Railroad Pricing: A Case Study 32–41

GITTINGER, J. P. United States Policy Toward Agrarian Reform in Underdeveloped Nations 195–206

GROSSMAN, DAVID A. The Appalachian Region: A National Problem Area (Melvin R. Levin, co-author) 133–141

HASHIMI, RASOOL M. H. Land Reform in Iraq: Economic and Social Implications (Alfred L. Edwards, co-author) 68–81

HOYT HOMER. A Method for Measuring the Value of Imports into an Urban Community 150–161

—— ——. The Utility of The Economic Base Method in Calculating Urban Growth 51–58

JAMES, LEE M. Forestry Practices Under the Agricultural Conservation Program (Con H. Schallau, co-author) 142–149

KNAPPEN, LAURENCE S. Wage Rate Increases Versus Telephone Rate Increases 59–67

LEVIN, MELVIN R. The Appalachian Region: A National Problem Area (David A. Grossman, co-author) 133–141

LIEBMAN, CHARLES S. Political Values and Population Density Control (James G. Coke, co-author) 347

LONG, ERVEN L. The Economic Basis of Land Reform in Underdeveloped Economies 113–124

MAC DONALD, GORDON D. The New York Metropolitan Region: Social Forces and the Flight to Suburbia. (Rosalind Tough, co-author) 327–336

MILLER, MORRIS. The Scope and Content of Resource Policy in Relation to Economic Development 291–310

NOBE, KENNETH C. Development of a Regional Concept for Farm Management Research in New York (Howard E. Conklin, co-author) 42–50

—— ——. Use of Airphoto Interpretation in Agricultural Land Economics Research 321–326

PEGRUM, DUDLEY F. The Los Angeles Metropolitan Transit Authority 247–255

PENN, RAYMOND J. Public Interest in Private Property (Land) 99–104

RUTTAN, VERNON W. The Impact of Local Population Pressure on Farm Real Estate Values in California 125–132

SCHALLAU, CON H. Forestry Practices Under the Agricultural Conservation Program (Lee M. James, co-author) 142–149

SCHECHTER, HENRY B. Cost-Push of Urban Growth 18–31

SCHNORE, LEO F. The Statistical Measurement of Urbanization and Economic Development 229–246

STEWART, CHARLES T., JR. Land and Income Distribution in Peasant Countries 334–346

TOUGH, ROSALIND. The New York Metropolitan Region: Social Forces and the Flight to Suburbia (Gordon D. Mac Donald, co-author) 327–336

SUBJECT MATTER

A

Agrarian reform in underdeveloped nations
  analysis of United States policy 195–206
  see also, Peasant economies
Agricultural Conservation Program
  analysis of forestry practices
    forestry practices recognized by ACP 144
    non-industrial private planting 147
    payments for forestry comparisons 144
    timber stand improvement under ACP 147
    tree planting under ACP 145
  see also, Local government assessment
Airphoto technique
  agricultural research tool
    basic principles described 321
    concept of associative interpretation 323
    direct aggregation of data 323
    potentials as a research tool 322
American Indians
  critical appraisal of governmental program
    Bureau of Indian Affairs 166–172
    conditions on reservations 162–164
    consequences of inadequate concept 170
    employment conditions 163
    farm and ranch units 163
    governmental philosophy 168
    land tenure 164
    limitations on economic development 170
Appalachian region
  an economic problem area
    economic structure 135
    effect of highways on tourism 139
    obstacles to economic growth 136
    population characteristics and trends 133
    regional job deficiency 136
    resource-oriented industries 139
  see also, American Indians
Appraisal
  see, Central business district; Deed recordings; Housing and governments; Population density control; Real estate; Replacement cost concept; Urban growth

C

California
  see, Los Angeles; Population pressure on farm real estate values; San Francisco
Census of Agriculture, 1954 (United States)....187
Central business district
  problem of preserving property values
    Fort Worth, Texas 265
    Kalamazoo, Michigan 264
    Knoxville, Tennessee 265
    London, Ontario 267
    low-cost parking factors 266
    mass transportation 268

population change, 1950–1960 269
the mall as an experimental solution 264
see also, New York; Population density control; Urban growth
Ceylon, land settlement studies under FAO 198
Conservation and resource programming
definition of terms 104
optimum state 106
problem of institutional constraints 108
problem of uncertainty 108
problem of valuation 107
see also, Appalachian region; Conservation Department, Wisconsin; Forestry; Nez Perce Dam; Resource policy and economic development
Conservation Department, Wisconsin 183
Cooperatives
see, Iraq; Underdeveloped economies; United States
Cost-push of urban growth
increased economic cost factors 20–30
possible effects on economic growth 30
secular change in locational structure 18
see also, Central business district; Economic base; Economic base method; Los Angeles, California; New York; Population density control; San Francisco, California; Suburbanization; Urban growth; Urbanization and economic development; Zoning boards

D

Decentralization
see, Central business district; New York: Population density control; Population growth; Urban growth; Urban planning
Deed recordings
as indicators of real estate activity: case study
analysis of time lag 180
volume factor 179

E

Economic base
method for measuring value of imports into a community
applications of method to Detroit, Mich. 154–157
application of method to Washington, D. C. 152–154
basic employment in retail trade 158–160
diversified hypothetical city 157–158
see also, Deed recordings; Economic base method; Los Angeles, California; San Francisco, California; Urban economics; Urban growth
Economic base method
utility of method in calculating urban growth
change in ratio between basic and nonbasic employment 51–53
forecast of population 55
past relation between increase in activity and population 53–55
see also, Population density control; Suburbanization; Urbanization and economic development; Zoning

F

Farm management research
regional concept plan for New York
classification problems 43–48
sampling techniques developed, 1950 42
systematic explorations of alternatives 49
see also, Air photo techniques; American Indians; Forestry; Underdeveloped economies
Food and Agriculture Organization, United Nations 196
Forestry
see, Agricultural conservation program; Air-photo technique; Landtype classification and mapping
Fort Worth, Texas and central business district.265

H

Housing and Governments
accessibility of minority groups to living space
impact in brokers 371
impact on property values 371
issue in Michigan 369
issue in other states 371
Humid areas
see, Irrigated lands; Local government assessment; Water use
Hydropower development versus preservation of salmon run 257–260

I

India
see, Underdeveloped economies
Inter Agency Committee on Land Reform, 1951 197
see also, Resource policy and economic development
Iraq
land reform: economic and social implications
cooperatives 77
historical background 70–76
new law, 1958 75
tenancy contracts 77
see also, Private property (land); Underdeveloped economies
Irrigated lands
a means of stabilizing moisture distribution
determinants of location of supplemental irrigating
humid area location 187
thirty-one eastern states by region 188
see also, Local government assessment
Irrigation
see, Water use; Irrigated lands

J

Japan
see, Underdeveloped economies
Joint Commission on Rural Reconstruction, 1948 201

K

Kalamazoo, Michigan and Central Business District 264
Knoxville, Tennessee and Central Business District 265

L

Land and income distribution in peasant economies 337–346
Land ownership
see, Peasant economies; Population density control; Resources policy; San Francisco, California; Urban development; Urban land

Land reform
see, American Indians; Forestry; Iraq; Peasant economies; Private property (land); Underdeveloped economies; Venezuela
Land tenure
see, American Indians; Appalachian region; Farm management research; Forestry; Iraq; Private property (land); Venezuela
Landtype classification and mapping 271–278
see also, Airphoto technique
Local government assessment
relationship between taxation by units of government and land and water use
appraisal of public water district assessment.213
economic impact 210
evaluation of public water district assessment 214
public water district assessment 208
see also, Nez Perce Dam
London, Ontario and Central Business District..267
Los Angeles, California
metropolitan transit authority
coordination of passenger-transport 249
financing plan 250
functions of the Authority 248
need for legislation 255
Public Utilities Commission 250
Passenger traffic problem 252
Transit Authority Act, 1951 & 1957 247
see also, Decentralization; Urban planning

M

Mapping and landtype classification 271–278
see also, Airphoto technique
Middle East
see, Iraq; Land reform; Underdeveloped economies
Minority groups and housing 369–373

N

Natural resources
see, Appalachian region; Conservation and resource programming; Forestry; Local government assessment; Nez Perce Dam; Water use
New York
population movement study
cohesive forces 329–330
dispersive forces 330–332
Harvard Survey, 1959 328
metropolitan regions classifications 328
social problems 332–335
see also, Population density control
Nez Perce Dam
hydropower development versus value of a fishery
non-monetary and extra-market factors 257
comparison of alternatives 258
cost of saving the salmon 258

P

Paints and Related Articles in Official Territory, 1959 railroad pricing case study 32–41
Peasant economies
land and income distribution
implications of data 345
laws on income distribution 337
question of equilibrium distribution 342
Philippines
see, United States
Population density control
analysis of political values factor
density trends 348
efficiency of large lots 355
explanations for inter-community variations 360
lot size and price of homes 356
neighborhood homogeneity 359
tax base factor 350
values underlying large lot zoning 348
Population growth
see, Central business district; Cost-push of urban growth; Economic base; Economic base method; Los Angeles, California; New York; Population density control; Population pressure on farm real estate values; San Francisco, California; Suburbanization; Urban growth; Zoning
Population pressure on farm real estate values
case study of California counties
analysis of values in irrigation vs. non-irrigation counties 130
competition between farm and nonfarm uses 125–127
empirical test of hypothesis 126–128
see also, Agricultural Conservation Program
Private property (land)
public interest 99–104
see also, Agricultural Conservation Program; American Indians; Local government assessment; San Francisco, California; Underdeveloped economies
Public interest in private property (land)
eminent domain 104
police power 103
spending power 104
taxation 103
see also, Local government assessment
Public utility economics and academic attention 374–378
Public Service Commission, Wisconsin 183
Public utilities
see, Cost-push of urban growth; Los Angeles, California Railroad pricing; Transportation; Wage-rate increases versus telephone rate increases

R

Race restrictive housing
see, Minority groups and housing
Railroad pricing
study: Paint case
analysis of technique 36
background of railroad pricing problem.32–34
market-oriented pricing 34–36
preservation of rate relationships 40
Real estate
see, Appalachian region; Central business district; Decentralization; Deed recordings; Economic base; Population density control; Population pressure on farm real estate values; San Francisco, California; Urban growth
Recreation areas
distance-traveled technique; an application
application of weights by distance 360–361
Wisconsin survey study, 1960 363–366

Replacement cost concept
cost-of-production theory 280
instantaneous concept 279
replacement cost is a selling price 279
Resource policy and economic development
analysis of scope and content
demand problem 307–309
elusive concept of conservation 291–294
nature of resources role 301–305
need for integrated approach 309–310
questionable resource-base assumption .294–301
resources supply problem 305–307
see also, Peasant economies
Resources policy
see, Agricultural Conservation Program; American Indians; Conservation and resource programming; Local government assessment; Nez Perce Dam; Resource policy and economic development; Water use
Resource programming and conservation ..105–111
see also, Nez Perce Dam; Resource planning and economic development

S

San Francisco, California
study on legal ownership of land
area classification 176
assessed value classification 176
property sales activity 176
significance of ownership group 174
Soil Conservation and Domestic Allotment Act (1936) 142–149
Suburbanization
case study of effects, Flint, Michigan
accessibility factors 88–92
participation in community affairs factor.91–93
transportation factor 89–93
see also, Central business district; Deed Recordings; Economic base; New York; Population density control; San Francisco, California; Urban growth

T

Taiwan and change in reform policy 201
Telephone rate increases
see, Public utilities; Suburbanization
Transit Authority, Metropolitan Los Angeles 247–255
Transportation
see, Appalachian region; Central business district; Cost-push of urban growth Decentralization; Economic base; Los Angeles, California; San Francisco, California; Suburbanization

U

Underdeveloped economies
economic basis of land reform
allocation of capital 119–123
basic needs 114–115
basic objectives 113
coperative farms 121
India as an example 113–118
Japan as an example 120
size of farm versus value per acre 116–119
see also, Peasant economies
United States
Agrarian reform policy toward underdeveloped nations
Ceylon study 198
family-size farms 196
Philippines, lost opportunity 199
property rights infringement 198
rural cooperatives 196
support for FAO tenure program 197
Taiwan and change in policy 201
Viet Nam: tenure security and land transfer.202
United States Bureau of Indian Affairs
need for new policy 162–173
Urban development
see, Cost-push of urban growth; Decentralization; Deed recordings; Economic base method; Los Angeles, California; New York; Population density control; San Francisco, California; Suburbanization; Urbanization and economic development; Urban planning; Urban growth; Zoning
Urban economics
appraisal of progress
coverage and depth 221
data availability and measurability 221
precision of procedure and results 222
proposals for improvement 223
see also, Economic base; Population density control; Urban planning
Urban growth
forecast of population growth and political problems
central cities loss of identity 312
land use versus population expansion 311
minority groups problem 318
need for autonomy in redeveloped areas ...315
political power dispersal inevitable 314
rapid population growth versus employment 318
tax burden on home owners 313
see also, Population density control
Urban planning
dilemma of central decay with further urbanization
area of effective control 262
decentralization trend 261
market as primary force 262
planning framework 261
see also, Central business district; Decentralization; New York; Population density control; Urban growth
Urbanization and economic development
statistical measurement technique
data, methods, sources of problems 232
indicators of modernization 231
industrialization defined 229
measures of economic development 237
tentative character of results 233
the correlates of urbanization 234
variations in and between regions 258
see also, Los Angeles, California; New York; Urban planning
Urban land
see, Decentralization; Deed recordings; Economic base; Los Angeles, California; New York; Population density control; San Francisco California; Suburbanization; Urban development; Urban growth; Urban planning; Zoning boards

V

Venezuela
agrarian reform law of 1960
basic causes of unrest 6–8
data on productivity and land holdings ..9–10
unique features summarized 13
Viet Nam: struggle for land transfer and tenure security 202–204

W

Wage rate increases versus telephone rate increases
cost comparisons by companies: 1946, 1959..60–61
decrease of wage cost per dollar of revenue 64
effect on per share earnings 67
relative decline in number of employees ...62–64
Water resources
see, Local government assessment; Nez Perce Dam; Population pressure on farm real estate values
Water use
allocation by permit system: Wisconsin
conservation Department function 183
high capacity well permits 186
implication for the public interest 184
notice and public hearing requirement 183
Public Service Commission authority 183
Wisconsin Water Pollution Committee 183
see also, Humid areas; Irrigated lands
Wisconsin survey on recreation areas, 1960..363–366
Wisconsin Water Pollution Committee 183

Z

Zoning
see, Central business district; Economic base; Population density control; Suburbanization; Urban development; Urban growth; Urban planning; Zoning boards
Zoning boards
analysis of purpose and practice
adjustment of theory to facts 86
historical review 82
impact of Euclidean zoning 83
theory of rigidities 84

The Appraisal Journal

The Professional Quarterly Published by

American Institute of Real Estate Appraisers

of the National Association of Real Estate Boards

Appearing in the October 1961 Issue:

Principles of Motel Operation .....*William B. Walton*

Financial Analysis of Motel Operation .....*George O. Podd*

What I Look for in a Real Estate Investment .....*Roger L. Stevens*

Depreciation and the Cost Approach .....*Charles F. Louie*

Cooperative Apartments and Condominium .....*Chinn Ho*

Single Copy $2.50 Annual Subscription $7.00
